## CREATOR DECK™

### Captures the Precious Moments

A digital recorder for FX Creator. Creator deck is an add-on product for Fx Creator for making VCD / DVD in the same machine simultaneously while mixing. You can install the creator deck in your Fx creator machine. Creator deck is a hardware based DVD / VCD authoring solution. After installing Creator deck you can do non linear editing as well as DVD / VCD authoring. Creator deck is a digital recorder that records your video directly on your hard disk drive.

You can rewind just like a normal VCR and remove the unwanted jerks by the last frame setting and continue with your recording. Because of this feature of VCR you don't have to buy a separate video recorder as it records in digital format. You will always get better quality output without generation loss. You will also get 100% audio – video synchronization as it has built-in TBC. Now it is possible to do a 3 hour mixing / dubbing and VCD / DVD authoring simultaneously in 3 hours. Creator Deck support Ultra pack upgrade available optionally.

#### Minimum System Requirement

- Pentium® IV 2.8 GHz or above
- 512 MB RAM (1 GB RAM recommended)
- 160 GB 7200 RPM HDD or above
- NTFS file system
- 1 free PCI slot
- Fx Creator card & software installed
